

District 126 iPad Cheat Sheet

- Each iPad is assigned specifically to your child. As a reminder, [here is a copy](#) of the district acceptable use policy for these devices
- Once you get the iPad, you'll need to connect it to your home Wi-Fi. [Instructions](#) on how to do that from Apple are below:

Connect to a Wi-Fi network

1. From your Home screen, go to Settings > Wi-Fi.
2. Turn on Wi-Fi. Your device will automatically search for available Wi-Fi networks.
3. Tap the name of the Wi-Fi network that you want to join.

With iOS 13 and iPadOS, you might see these network options:

- My Networks: Wi-Fi networks that you've connected with before.
- Public Networks: Available Wi-Fi networks that you've never connected with before.

After you join a network, you'll see ✓ next to the network and  in the upper-left corner of your display or the upper-right corner on an iPhone X and later.

- There are several programs and apps that we use in the classroom. Several of them are found in the Clever App on the iPad. All of the apps on the iPad are district-approved and are for student use. Here is a breakdown of where to find some of the most frequently used tools:

<u>Clever</u>	<u>Apps</u>
iReady	Seesaw
Storia (under Scholastic)	iRead
Brainpop Jr.	ConnectED (icon)
Benchmark Education	Book Creator
	Flipgrid
	Kodable
	Google Meet, Zoom
